### Professional Summary

I am a BCA graduate with a strong foundation in backend development, specializing in Python, Django, REST API design, and database management. I have hands-on experience building efficient server-side systems and working with SQL-based databases. With solid problem-solving skills and a passion for clean, scalable code, I strive to deliver reliable backend solutions. I am a fast learner, collaborative team player, and motivated to contribute effectively to real-world software development projects.

### Education

#### Bachelor of Computer Applications (BCA)

Bhagwan Mahavir University, Surat

Aug 2022 – May 2025 | Current SGPA: 8.74

#### Higher Secondary Certificate (HSC)

Jun 2021 – Mar 2022 | Percentage: 54.57

#### Secondary School Certificate (SSC)

Jun 2019 – Mar 2020 | Percentage: 53.16

### Projects

#### Travel Booking and Tourism Management System

Jan 2025 – Apr 2025

Developed a travel booking web application using CodeIgniter with a secure PHP-MySQL backend, supporting user authentication and complete booking management. Designed responsive, user-friendly interfaces with HTML5, CSS3, Bootstrap 5, and jQuery, along with an admin panel for managing packages and payments.

### Technical Skills

**Web Technologies:** HTML5, CSS3, Bootstrap.

**Backend Development:** python , Django , REST APIS .

**Programming Languages:** Python, c, cpp .

**Database Management:** MySQL, SQL.

**Version Control :** Git, GitHub.

**Soft Skills:** Problem-solving, Team Collaboration, Communication.
